* Deep Fill option

For more water when you want it, select the Deep Fill option to fill the wash basket with your choice of deeper water levels. The extra water works with robust wash action to effectively break down and rinse away everyday tough messes.

* Built-in water faucet

The built-in water faucet is engineered for the extra dirty. Use it to rinse away loose soils as clothes go in or fill the tub for up to a three-hour soak before the cycle begins. Delay the start of the wash cycle to take loads straight from soaking to washing without coming back to the washer.
