## KEY FEATURES

*** FreshFlow(TM) Vent System**

The FreshFlow(TM) Vent System is a trio of freshness features that helps keep your clothes and washer fresh. It's the first fan-powered system with the FanFresh(R) Option, Dry Drum Cycle, and Antimicrobial Gasket.

*** Dry Drum Cycle**

After you take the clothes out, close your washer door and select the Dry Drum Cycle. A powerful fan reduces excess moisture from the drum, rubber gasket and door.

*** FanFresh(R) Option**

Keep your clothes fresh in the washer after a cycle. The FanFresh(R) Option uses a built-in fan and periodic tumbling to keep your just-washed clothes fresh until they're ready for the dryer, using less energy than you would re-washing your clothes.* *Based on rewashing an 8 lb load on Normal cycle.

*** Antimicrobial Protection**

Antimicrobial protection on the rubber seal helps keep your washer fresh by preventing the growth of odor-causing bacteria and mold.

*** Intelligent Wash**

Simplify your laundry routine with intelligent wash technology. It uses sensors to detect load size and fabric type, then automatically adjusts water levels, temperature, and wash actions for ideal fabric care and efficient cleaning performance.

*** Quick Wash & Dry**

Finish laundry in less than 1 hour by pairing the 25 minute Quick Wash cycle with the 30 minute timed dry.* Experience the ultimate time-saving duo for hassle-free laundry days. *Based on a 10-lb load when paired with a traditional vented dryer on medium heat.

*** Quick Wash Cycle**

Save time in the laundry room and wash a full-sized load fast with the 25 minute Quick Wash Cycle.* *Based on a 10-lb load.

*** 5.0 cu. ft. Capacity**

Fit more in a single load with our Largest Capacity Front Load Washer at 5 Cu. Ft.
